

Chivalry-Now

The Code of Male Ethics

Chivalry Day...

...reminding us all that there's a better way to live.

There's more to chivalry than men opening doors for ladies.

It represents a way of life based on truth, honesty, personal honor, courteous behavior and helping those in need. This is our cultural inheritance, sadly neglected in recent times.

By reviving an *updated* form of chivalry in the world, we hope to bring positive change to politics, gender relations, social problems and personal fulfillment.

Don't just learn it! *Live it!*
